

ARIJ CHOWDHURY

Full Stack Developer | Agentic AI Developer | Next.js & MERN Stack

Bengaluru, Karnataka, India | Open to Relocation & Remote Opportunities
+91 9901412827 | arij.chowdhuryr@gmail.com | linkedin | github | Portfolio

Professional Summary

Results-driven Full-Stack Developer with hands-on experience building scalable web applications using **Next.js, React.js, Node.js, Express.js, and MongoDB**. Experienced in Agentic AI development using **LangChain, LangGraph, LangSmith, RAG, Deep Agents, guardrails, and n8n** for building autonomous workflows and AI-powered applications. Seeking Full-Stack Development and Agentic AI roles, open to remote, relocation, and international opportunities.

Technical Skills

Languages: JavaScript (ES6+), TypeScript, Python, C, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Bootstrap, Responsive Design, State Management

Backend: Node.js, Express.js, RESTful APIs, Authentication and Authorization

AI/ML & Agentic AI: LangChain, LangGraph, LangSmith, Deep Agents, RAG, Agent Orchestration, Guardrails, Prompt Engineering, N8n, Scikit-learn, Pandas, NumPy, PyTorch, Matplotlib, Explainable AI (XAI)

Databases: MongoDB, MySQL, Supabase, Vector Databases

Cloud & Tools: AWS, Microsoft Azure, Git, GitHub, Postman, Vercel, Netlify, VS Code

Core Concepts: Data Structures and Algorithms, OOP, MVC Architecture, API Integration, Performance Optimization

Projects

Mystery Box Order - Full Stack E-commerce Platform

GitHub

- Developed a scalable e-commerce platform using **Next.js, Node.js, MongoDB, and REST APIs**, implementing secure authentication, responsive UI, product and order management, and optimized frontend-backend integration.

Autonomous Research & Report Agent - Agentic AI System

GitHub

- Built a multi-step autonomous research agent using **LangGraph** that researches topics, retrieves and synthesizes web data, and generates structured reports with persistent agent state and memory stored in **MongoDB**, integrated with a **Next.js** frontend for task submission and report review.

Multi-Agent Ops Assistant - Agentic AI Dashboard

GitHub

- Designed a **multi-agent system** using **LangChain and LangGraph** where collaborating agents monitor incoming data, detect anomalies, and auto-draft summary alerts, with a **Node.js** backend using vector-based retrieval for context-aware responses and a **Next.js** dashboard.

Malware Detection & Classification - Explainable AI

- Used **Pandas, NumPy, Scikit-learn, Matplotlib etc.** with various machine learning algorithms and explainability techniques to develop and integrate predictive models into a Windows security application called **Zero-Day Guard**.

Work Experience

Frontend Web Development Intern — Codtech IT Solutions Pvt. Ltd.

Kolkata, India

Oct 2025 – Jan 2026

- Engineered **2 production-grade multi-page web applications** using **Next.js** with reusable component architecture and REST API integration.
- Optimized application performance using lazy loading, image optimization, and efficient state management, reducing load time by approximately **30%**.

Education

B.Tech in Information Technology

2022–2026

Maulana Abul Kalam Azad University of Technology, West Bengal

CGPA: 8.45/10

Higher Secondary (XII) — Jangipur High School, WBCHSE (2022)

76%

Secondary (X) — Rabindra Smriti Vidyatirtha, WBBSE (2020)

68%

Achievements & Certifications

- Secured **Global Rank 2832** in **TCS CodeVita Season 13**.
- Earned **AI Interview Certified in Frontend Web Development** from **Micro1**.
- Received Certificate of Merit in **HackVega National Hackathon 2025**.
- Completed certifications in **Oracle Agentic AI Foundations, Build Reliable Agentic AI Applications, NVIDIA Prompt Engineering, Microsoft Azure Fundamentals, and AWS Compute Services**.

Activities

- Participated in coding contests, hackathons, and technical competitions, building practical solutions.
- Continuously explored and implemented emerging technologies including **LangChain, LangGraph, RAG, AI agents, and modern web development** through self-driven projects.
